DETAILED ACTION

Claims 1, 5-14, 17-39, 44-56 are currently pending and are present for examination.

Applicants' amendments and arguments filed on 6-15-05, have been fully considered and are deemed to be persuasive to overcome the rejections previously applied. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn.

Terminal Disclaimer

The terminal disclaimer filed on 6-15-05 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 6,503,748 has been reviewed and is accepted. The terminal disclaimer has been recorded.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William E. Kuss on 8-26-05.

The application has been amended as follows:

In the claims:

- A) In claim 25, line 1, delete the phrase "A transformed *Escherichia coli* cell comprising" and replace it with "An isolated *Escherichia coli* cell transformed with".

Art Unit: 1652

- B) In claim 26, line 1, delete the phrase “A transformed *Ketogulonigenium* cell comprising” and replace it with “An isolated *Ketogulonigenium* cell transformed with”.
- C) In claim 27, line 2, delete the phrase “host cell comprising” and replace it with “host cell transformed with”.
- D) In claim 27, line 4, delete the word “and” and insert the phrase “said nucleic acid molecule”.
- E) In claim 28, line 6, insert the phrase “said nucleic acid molecule” after “SEQ ID NO:1,”.

These amendments are done with the sole intention of presenting them in better condition for allowance and do not change the original scope of the claims.

Allowable Subject Matter

Claims 1, 5-14, 17-39, 44-56 are allowed.

The following is an examiner’s statement of reasons for allowance: Following a diligent search it was determined that the prior art neither teaches nor suggests an isolated or purified nucleic acid molecule comprising a *Ketogulonigenium* plasmid replicon as shown in SEQ ID NO:1 with the instant properties outlined in claims 5-14, 17-39, 44-56.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
